

Sunset Lakes

Summer is short make Moments that last at Sunset Lakes

Age five to eighty-five enjoy being a family together at Sunset Lakes. Where the entire Sunset Lakes family shares success.

Jonathan Travers short line@41

Many families from around the globe plan their vacations around a water-skiing experience. Sunset Lakes offers chalets, upscale home rental with water skiing from pros and head coaches Jack and Chris Travers. You can take lessons by the set, day or week. Lessons are given for the beginner getting up on two skis to the pro slalom, jump or trick skier.

Sunset is off the beaten path. You can reconnect with family and friends on the front porch overlooking 110 acres filled with native Florida wildlife and three perfect man-made lakes. When not skiing, the lakes are perfect for bass and speck fishing. You can pitch horseshoes under the branching oaks or play beach volleyball. Take a nature walk or bike around the property and spy great blue herons, cooter turtles, sandhill cranes and occasionally river otters with their pups. Any one with left over energy can use the full circuit gym.

The Travers family for over 34 years have ran a world-class training site for water skiers.

Sunset Lakes still offers bunk style housing for campers with full room and board. For those national and international team members we offer a junior and high school program with full tutoring. This year five full time students used a variety of Internet school programs, which met their individual needs.

Sunset sets off the Florida turnpike a mere 35 minutes from Orlando's vacation central. It is a short drive to either the Atlantic or Golf beaches. Many of Lake County's cities have quaint shops an small upscale restaurants. For the thrill seeker in your group, there is hang gliding, biplanes, hot air balloons and gliders. Over 20 unique golf courses are available for play around Sunset Lakes. Bike trails and horseback riding are minutes away from your front door at Sunset lakes.

The Perfect Escape!

- Junior suites, fully air conditioned cabins for bunk style housing
- Luxury one, two, three and four bedroom villas, fully furnished for short term and extended stays
- Three private man-made lakes
- Three slalom courses and three jumps
- Pro shop and hot tub at the main deck
- Full circuit gym
- Planned activities for all minors and adults
- Record and class c tournaments on site

Watch these two become the future super stars of our sport!

This year has been busy with just the success stories of our skiers. It is hard to tell all the stories in a single newsletter I am just going to highlight the two that have been training together for 10 years. They are more like brothers than training partners. We look forward to both of their success in the years to come. From the Under 21 Worlds in January Zack Worden and Jonathan Travers have been on top of their game. Three gold's in Jump and two overall titles for Zack. Jonathan Travers had a silver in Slalom at the Under 21 Worlds, his first invite to the U.S. Masters in open slalom finishing 8th out of 12 men. At his first pro tour stop he finished 3rd after running 39.5 off the line four times.

Sunset Lakes Ski club will be hosting the 2008 Southern Regional Championships July 23-27. You can pre book practice by calling Lelani at 1-800-732-2755 or email her at sunset@atlantic.net. For more information about other tournaments check out ski club information at www.iacktravers.com

What has changed this year at Sunset Lakes?

The Lakes:

We have completed the third lake, it will be ready for practice at this years regionals. It will also help us not to turn away people who wish ski in the spring and summer. We still like that personal touch of a few staff and small number of skiers on each lake. You can see the success of that thought in our third generation of families skiing with us.

New aluminum gas docks and decks have been added to each lake, as well as new official towers.

The Landings:

Three new villas have gone up this winter in Phase I of the Development. Each of the villas are unique and fully furnished for your pleasure. Sunset Landing Phase I has three lots left for sale, nine villas out of 18 are completed. Phase II has 3 lots left for sale and one villa out of 7 completed. Still to come this summer are gates leading into Phase I and II of the development.

The Bunk Houses:

Bright Yellow, greens and Peaches transformed the main dorm in to a Caribbean theme. The addition of stairs and the finishing of the loft for additional sitting along with a big screen TV and guitar hero finished off that building. We have added new landscaping and a wider front porch for rocking and relaxing.

The Tower and Gazebo:

This area is always being redefined. A new work area was added for ski repair at the back of the building. The painters have completed a transformation of one generation of paint from the roofs down. Refurbished ski racks and new lighting have been added. As well as new landscaping with lots of ginger and bright purple bog lilies.

Call or email to book space for the summer and falloff 2008. email: sunset@atlantic.net
